360° Snap-action ratchet wrench for hex sizes from 10 mm to 41 mm and inch sizes from 3/8" to 2 1/4" across flats. Inch sizes meet US government specifications and are listed as NSN-5120-00-474-7227.

Install tube fittings more quickly

Easy access ratchet wrench speeds fittings installation in tight locations. Rugged, snap-action jaws can be opened over tube lines, locked onto fitting hex and ratcheted within 1/8 turn. Full six point contact prevents fitting distortion common with wrench slippage. Ideal for tube line installations where compact runs required multiple fittings make-up, disassembly and remakes.

Specifications

Par-Lok wrenches are available individually or in different kit combinations. Par-Lok jaws are constructed from drop-forged, high carbon steel material with a black conversion coat finish. Par-Lok handles are made from heavy gauge steel material, heat treated and with a corrosion resistant black finish.
