

Technical Specifications

Inlet Connection Size:	1 x ½ inch and 1 x ¼ inch		Automotive Electronics Pharmaceuticals
Tank Capacity:	60 litres (16 US G)		Each Separator model is sizeable to deliver a residual oil in water level of:
Outlet Connection Size:	25 mm (1 inch)	Residual Oil Content:	<20mg/L <10mg/L <5mg/L
Division:	Gas Separation and Filtration Division EMEA	Operating Pressure:	Maximum: 16 barg (232 psig)
Brand:	Parker	Materials of Construction:	Polyethylene (Re-cyclable)
Technology:	Filtration	Height:	810 mm (31.9 inch)
Application:	Compressed Air Applications	Width:	350 mm (13.8 inch)
Product Type:	Oil/Water Separator	Depth:	430 mm (16.9 inch)
Product Style:	Static	Weight:	Empty: 10 kg (22 lbs) Full: 78.5 kg (173 lbs)
Product Series:	ES2000		
Industry:	Industrial Manufacturing Equipment Food & Beverage
