

#### PG106521

#### **LASER SENSORS • FORK LIGHT BARRIERS**

Special design of through-beam sensor. Transmitter and receiver are located in the fork or angular limbs and are perfectly aligned to each other.

# **MECHANICAL DATA**

| Ambient temperature                         | -20 °C 50 °C       |
|---|--------------------|
| Aperture diameter                           | 0.6 mm             |
| Degree of protection (IP)                   | IP67               |
| Fork depth                                  | 13.5 mm            |
| Fork light barrier design                   | Furcate            |
| Fork width                                  | 10 mm              |
| Housing design                              | Cuboid             |
| Housing material                            | Aluminium          |
| Material of cable sheath                    | PUR (Polyurethane) |
| Material of optical surface                 | Glass              |
| Punching tools                              | Yes                |
| Reflector included in the scope of delivery | No                 |
| Sensor height                               | 24 mm              |
| Sensor length                               | 6 mm               |
| Sensor width                                | 31.5 mm            |

# **ELECTRICAL DATA**

| Analogue output 0 mA 20 mA            | No        |
|---------------------------------------|-----------|
| Analogue output 0 V 10 V              | No        |
| Analogue output -10 V +10 V           | No        |
| Analogue output 4 mA 20 mA            | No        |
| Decay time                            | 0.02 ms   |
| Max. output current                   | 100 mA    |
| Max. switching distance               | 10 mm     |
| No-load current                       | 20 mA     |
| Number of pins                        | 4         |
| Operating voltage                     | 12 V 30 V |
| Pre-failure message                   | No        |
| Rated control supply voltage Us at DC | 12 V 30 V |
| Relative repeat accuracy              | 0.01 mm   |
| Repeatability +/-                     | 10 μm     |

#### **ELECTRICAL DATA**

| Response time                                  | 0.02 ms                                       |
|--|---|
| Reverse polarity protection                    | Yes   |
| Scanning function                              | Light-/dark-on mode                           |
| Short-circuit-proof                            | Yes   |
| Suitable for safety functions                  | No  |
| Switching frequency                            | 25000 Hz                                      |
| Type of electrical connection                  | Cable connector M12                           |
| Type of switching function                     | Normally closed contact/normally open contact |
| Type of switching output                       | PNP/NPN                                       |
| Type of the forked light barrier               | Standard                                      |
| Voltage type                                   | DC  |
| With communication interface, analog           | No  |
| With communication interface, AS-Interface     | No  |
| With communication interface, CANOpen          | No  |
| With communication interface, DeviceNet        | No  |
| With communication interface, Ethernet         | No  |
| With communication interface, INTERBUS         | No  |
| With communication interface, PROFIBUS         | No  |
| With communication interface, RS-232           | No  |
| With communication interface, RS-422           | No  |
| With communication interface, RS-485           | No  |
| With communication interface, SSD              | No  |
| With communication interface, SSI              | No  |
| With monitoring function of downstream devices | No  |
| With other analog output                       | No  |
| With restart lock                              | No  |
| With time function                             | No  |
| OPTICAL DATA                                   |   |
| Laser protection class                         | Class 1                                       |
| Light beam form                                | Point   |
| Light source                                   | Laser diode, infrared light                   |
| Min. object size                               | 0.01 mm                                       |
| Resolution                                     | 300 μm  |

### **OTHER DATA**

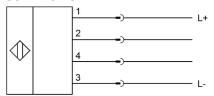

Wavelength of the sensor

| Feeding technology | Yes |
|--------------------|-----|
|--------------------|-----|

850 nm

#### **CONNECTION**

Colors: 1 = BN (brown), 2 = WH (white), 3 = BU (blue), 4 = BK (black) Functions: 1 = L+, 2 = PNP NO NPN NC, 3 = L-, 4 = PNP NC NPN NO

### **DIMENSIONAL DRAWING**

INSTALLATION DISPOSAL

Mounting / Installation may only be carried out by a qualified electrician!

#### **SAFETY WARNINGS**

Before initial operation, please make sure to follow all safety instructions that may be provided in the product information!
