<b>Legend:</b>																			
* = Not Current production release																			
- = Not Applicable																			
# = Must be configured as a foreign module.																			
All = Compatible with all available versions																			
No = Not compatible with the identified versions.																			
Alphanumeric Character (ie "D") = Compatible only with specified Catalog # suffix and later versions.																			
Alphanumeric Character/bracket (ie "[C]") = Compatible only with specified Catalog # suffix.																			
S/W = Software, F/W Firmware, H/W Hardware																			
<b>NOTES:</b>																			
1. Refer to IPI for compatibility discussion.																			
2. Following is the latest compatibility info for release 8.10 and Rel 9.																			
Ver. 8.10 Firmware is required in 90-30 CPU's for CIMPLICITY Control																			
V2.00 of CIMPLICITY Control required for 351 & 352																			
V2.01 of CIMPLICITY Control required for 350 & 360																			
Release 9.0 of LM90-30 required for the 350, 360, and 363 CPU's																			
Note: Rel. 9.0 of LM90-30 not released at time this document was completed.																			
90-30 Features not supported by LM90:																			
[R8.00] C programming																			
[R8.00] SFC Subroutines (SFC Main is supported in LM90)																			
[R9.00] Sequential Event Recorder																			
[R9.00] Configurable Memory																			
[R9.00] 364 & EGD, Etc.																			
[R9.00] 369/Generic Daughter Board
